### *Buyer 's Acknowledgment*

*I, \_\_\_\_\_ (Buyer), understand that there will be a refund on puppy purchase if, within 5 business days from the date of transfer, I have had my new puppy checked out by a licensed veterinarian of my choice and he/she states that this puppy was not fit for sale and gives good reason in writing and provides test results/reports as to why the puppy was not fit for sale. At that time, the puppy can be returned to the seller at buyer's expense for a refund of purchase price, or an alternate puppy can be chosen if desired and available. If the buyer elects not to have their puppy seen by a veterinarian within 5 business days from the date of transfer all warranties are void. Seller cannot make any health guarantee regarding intestinal parasites, accidental death, sickness due to abuse, environmental factors, contact with other animals or other loss/injury once the dog has left the possession of the Seller as this is out of the sellers control.*

### *Seller's Guarantee*

*I, Briana Davis, the seller, do guarantee that all puppies sold by me are sound and healthy to the best of my knowledge and have been examined by a veterinarian before leaving my possession. Buyer will be provided with parasite test results, all applicable genetic testing results and registration. All of my puppies are brought into the world with the intent to improve the Australian Shepherd breed.*
